COMMISSIONING EXPERIENCE

Kentucky Association of Counties (KACo), Frankfort, KY

Project Cost: \$9,000,000.00 / 48,000 square feet

Scope: Comprehensive Commissioning for new construction of a building design that is fashioned after Thomas Jefferson's home. Office facility will be a "green", bi-level structure for a service organization that provides an array of insurance products and functions to the leaders of the 120 Counties of the Commonwealth of Kentucky. This building is seeking LEED silver certification.

Ball State University – Park Hall, Muncie, Indiana

Project Cost: \$27,000,000.00

Scope: Comprehensive Commissioning for construction of a new dormitory consisting of private bedrooms, public lounges, fitness room, laundry room, recreation areas, a large multipurpose room, a music practice room provides space for students to record music videos, and nearby are technology areas where they can edit their projects. This campus dormitory is seeking LEED certification.

Kenton County Public Schools

Project Cost: \$150,000,000.00

Scope: Comprehensive Commissioning for new construction and renovation of eight public schools, including LEED silver certified Twenhofel Middle School and high performance school designs as shown with Turkey Foot Middle School.

Muhammad Ali Center, Louisville, KY

Project Cost: \$80,000,000.00 / 93,000 square feet

Scope: Comprehensive HVAC Commissioning for new construction of a facility consisting of six-level center, with 2½ levels of innovative exhibits, educational and public programming, and global initiatives of an international cultural and educational center that is inspired by the ideals of Muhammad Ali.
